

NEO

Premium Comfort and Control at Your Fingertips

At Home with NEO

NEO control series is our most advanced integrated home air conditioning control platform yet. NEO's high quality components, sleek modern design, and easy to use interface brings air conditioning controls into the 21st century.

Comfort Your Way, Room by Room

With zoning built in as standard, NEO lets you manage every area of your home from one easy-to-use Touch Controller. You can even customise zone names to suit your home.

Images on this brochure are illustrative only and may show optional accessories or features.

Intuitive Interface

Designed specifically for everyday use, NEO's custom interface is easy to navigate, intuitive to understand, and simple to use.

NEO Connect App

Included as standard with the NEO control system, NEO Connect allows you to control your system from your mobile or tablet from almost anywhere in the world.

YourZone

YourZone allows you to manually adjust the airflow in your space to maximise your enjoyment of the room's temperature.

Meet the NEO Family

Built to Grow with You

The NEO control range brings the best in air conditioning controls that will evolve with you and continue to adapt and grow long into the future. The NEO family of controls comes packed with all the standard features you would need. When paired with the **Advance** system, the NEO can also deliver different temperatures in different rooms at the same time to suit every Australian lifestyle.

Over-The-Air Updates

Software updates happen securely and effortlessly via Wi-Fi, ensuring your controller and system always have the most recent software version.

Intuitive Interface

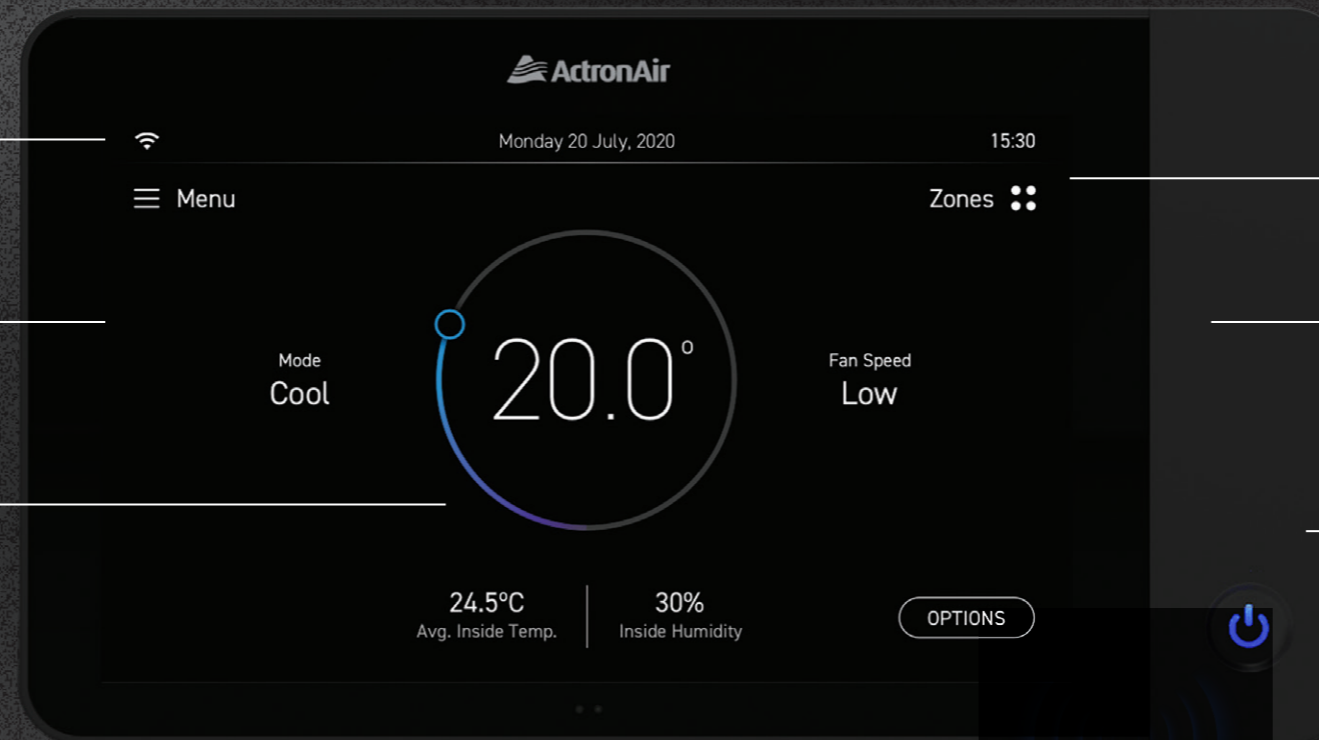

Our thoughtfully designed user interface is simple, intuitive and easy to use.

Precise Comfort Control

Set your temperature in 0.5°C increments, allowing you to choose the temperature that suits you best.

LED Wall Glow

Unique colour coded LED Wall Glow means you always when your system's on and what mode it's in.

Integrated Zoning

No need for clunky bolt-on zoning modules - NEO comes with zoning integrated as standard, allowing you to control all of your zones from the NEO Touch Controller. Best of all, each zone.

Near Field Communication (NFC)

NEO comes with NFC as standard, providing you with quick and easy access to operating instructions - all you need is a compatible smart phone. Can easily be updated with a custom name that suits you best.

Temperature and Humidity Sensor

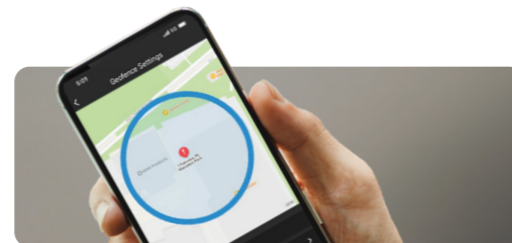

On-board temperature and humidity sensors means the NEO Touch Controller displays precise indoor temperature and humidity levels.

Configurable Proximity Sensor

Contactless position transmitters detect when a person is moving towards the controller and automatically turns on.

Stay connected, wherever life takes you.

With **NEO Connect**, your comfort is always within reach. **Control your air conditioning from anywhere using your smartphone or tablet**, with smart features that make everyday comfort simple — giving you convenience and peace of mind, wherever life takes you.

Geo-Fencing

Turn on or off your ActronAir system as you approach or leave your home, for greater peace of mind.

ActronAir YourZone

Precisely adjust the airflow in your space to maximise your enjoyment of the room's temperature.

Comfort Stand

Wirelessly sense temperature where you are. Providing you with the precise and premium comfort exactly where you need it.

Discover the difference NEO can make to your home.

Foot Notes 1 - 7

- Features may vary depending on the system configuration, model compatibility, and installation requirements. Some Neo features are only available when used with the Advance system. For tailored advice and the most suitable solution for your home, please consult your authorised ActronAir dealer before purchase.
- Wi-Fi compatibility with 802.11 b/g/n 2.4 GHz .
- NEO Touch must be connected to Wi-Fi with internet and cloud access. Firmware and app updates may be required to access certain features, availability and timing may vary.
- Portable stand compatible with wireless Neo Sense and NEO Zone.
- App features and connected functionality require a compatible device, supported operating system, internet/Wi-Fi with adequate bandwidth, and a supported router. Features may be affected by network conditions, device location settings, outages or third-party service changes.
- Third-party integrations (e.g., voice assistants) may require separate accounts, subscriptions or devices and are subject to their providers' terms, privacy policies and availability. Features can be withdrawn, modified or replaced at any time.
- Battery life is an estimate based on typical use; actual life varies with settings and environment.
